WHO THEY ARE.

Men Nominated By the Democrats for County Offices.

Following are brief sketches of the men nominated by the democratic convention at Berrien Springs yesterday:

Fred B. Collins named for sheriff will prove one of the strongest men on the ticket. He is a son-in-law of Mayor Brant, and will have that shrewd politician to manage his campaign. He is clerk at the Hotel Benton. Very popular and a young man of worth and ability. He is 29 years of age.

Matthias Weber, candidate for county clerk, is the present city clerk of St. Joseph. His popularity has been shown every time he has run for office. He is expected to poll the full German vote. His ability is unquestioned.

Leslie H. Kompton, nominated for register of deeds, is from Weesaw, the democratic stronghold of the county. He has for some time been a member of the board of supervisors and his record is a proud one.

James M. Babcock of Niles, candidate for county treasurer, once filled the office of treasurer. He is one of the leading democrats of the county and was Cleveland's postmaster at Niles.

W. C. Hicks, candidate for prosecuting attorney, is a lawyer of good ability and is now Benton Harbor's city attorney. He is a good orator and will be of great assistance to the democratic ticket in the campaign.

The candidates for the minor offices are capable men.

PING'S PICNIC

That's What Governor Had East.

Detroit, Aug. 23.—Gov. Pingree returned yesterday fresh from the naval review in New York harbor. He was much impressed with the affair in New York and was particularly proud of the fact that he was the only governor there.

"They felt a little hurt about it too," said Governor Pingree. "Even Governor Black of New York was not present. We left Gen. Alger's house in time to catch the 12 o'clock train for New York. We were met by an officer of the flagship New York and taken to that vessel by her launch. I met Sampson and Schley and all the captains and had a chat with them. I found that the chief engineer of the New York was a Michigan man, Frank M. Bennett of Cassopolis, and there were five sailors on the New York from Detroit. Funny thing—three of the five used to work in my shoe factory. You bet they were glad to see me."

SPAIN'S COMMISSION.

Official List of the Men Who Will Help Consider Spanish Evacuation.

ONE NAME OF MUCH SIGNIFICANCE.

Means That the Dons Will Bring Up the Question of Cuba's Future Government.—Admiral Sampson Calls on the President to Talk About the Commissioners' Duties.—Gen. Miles Leaves Porto Rico for Home.—Illinois Regiment Out of Shoes.—Prisoners Taken at Santiago.

Washington, Aug. 23.—The state department received a call yesterday from M. Thielbaut, secretary of the French embassy and in charge during the absence of Ambassador Cambon, who bore a notification from the Spanish government of the military commissioners for Cuba and Porto Rico. Under the peace protocol each government was to name its military commissioners within ten days, their meetings to begin within thirty days. The time was up yesterday and accordingly Spain gave the official notice of the appointments. They are as follows: For Cuba—Major General Gonzales Parrado, Rear Admiral Pastory Landero and Marquis Montoro. For Porto Rico—Major General Ortega y Diaz, commodore of first rank; Valeriano y Carrasero, and Judge Advocate Sanchez del Aguila y Leon.

Significance of Montoro's Selection.
The foregoing official list differs from some of the lists given in previous dispatches, which have included Admiral Montijo, General Blanco, General Macias, and several other prominent Spanish officers. Considerable significance attaches to the naming of Marquis Montoro on the Cuban commission, as it indicates a purpose on the part of Spain to go into the future government of Cuba. He is the only commissioner, Spanish or American, taken from civil life. He is secretary of the treasury of the Cuban autonomist cabinet, and all his interests are connected with the government of Cuba rather than with the military question of the Spanish evacuation of Cuba. He is named, it is believed, in order to carry out Spain's desire to have an understanding as to the future government of the island, he being intimately familiar with the questions of the civil administration of Cuba.

Sampson Calls on the President.
Admiral Sampson called on President McKinley yesterday and spent thirty-five minutes with him in discussion of the Cuban commission's plans and other matters. The president shook the admiral's hand very cordially, and talked over the Cervera fight with him. The plans of the commission to arrange for the evacuation of Cuba were talked over and the president was asked as to whether formal instructions would be given the commission. McKinley told the admiral that written instructions would be given the commission in a few days. The talk along this line was of a general nature, and laid down no strict line of policy. During the call Secretary Alger came over from the war department to consult the president regarding disposition of troops, and finding Admiral Sampson there greeted him and joined in the discussion.

Admiral Schley Not on Hand.
Both Rear Admirals Sampson and Schley had been invited here by the president to confer on the plans of the commission, but Admiral Schley did not arrive yesterday afternoon. Admiral Sampson refused to talk for publication at this time. When asked how long he would remain he answered "No longer than necessary." After leaving the president he stopped just long enough to gratify several autograph enthusiasts and then drove off to his hotel. Acting Secretary Allen announced positively that the admiral would retain his command of the North Atlantic squadron while one of the Cuban commissioners. No time had been fixed for the commission's departure. Pending the receipt of the president's written instructions Admiral Sampson will go to his home in New Jersey to spend a few days.

Late Deaths of Soldiers.
Washington, Aug. 23.—A report from Thoroughfare Gap, Va., says that Corporal Dennis J. Murphy, company A, Seventh Illinois, died at Bristow. Shafter's report from Santiago yesterday gave the number of sick Aug. 22 at 1,101. Deaths Aug. 20 included Private C. W. Richardson, company L, First Illinois volunteer infantry, dysentery; Musician John Lymons, company E, Thirty-fourth Michigan, typhoid fever. Aug. 21—Sergeant Henry Connors, company G, Thirty-third Michigan, typhoid fever following yellow fever.

NEWS FROM CONQUERED LANDS.

Number of Prisoners in the Santiago Territory—Situation in Porto Rico.

Washington, Aug. 23.—A dispatch received by Adjutant General Corbin last night from General Shafter indicates that with the fall of Santiago 23,726 Spaniards surrendered. Of this number a few less than 3,000 were guerrillas and volunteers, making the total number to be returned to Spain about 21,000.

In another dispatch General Shafter reports that he now has sufficient transports at Santiago to bring the remainder of the American troops to the United States. The Spanish prisoners are being embarked to return to Spain and Shafter expresses the belief that all will be en route to their home country by the latter part of the week.

Ponce, Porto Rico, Aug. 23.—General Miles and his staff left for home on the steamer Aransas last night. He held a final conference with General Brooke, who arrived from Arroyo on the Stillwater yesterday morning, and General Wilson, whose headquarters had been moved here.

Senor Lopez, editor of The San Juan Correspondencia, is here. He reports that Governor General Macias is pushing preparations for the evacuation of the island. The obstacles in the harbor of San Juan are being cleared away and a shiploaded with dynamite has been removed. General Macias, Senor Lopez, says, will return to Spain in a few days, leaving the details of the evacuation to his subordinates. General Henry's men are badly in

says it is impossible to transport supplies over the mountain trail, and it has been arranged to send them to Arecibo, an open port. The Sixth Massachusetts and the Sixth Illinois regiments are without shoes. General Brooke, who is to be in command of the island, may leave General Wilson in direct command of the troops while he (General Brooke) is attending the sessions of the commission for Porto Rico.

ILLINOIS EIGHTH IN BAD ODOR.

One Member Killed by Cubans, Who Are Giving Considerable Trouble.

Santiago de Cuba, Aug. 23.—At San Luis a negro sentinel of the Eighth Illinois battalion which is garrisoning the town was shot by Cubans. The Cubans attempted to pass the sentry, when the latter challenged them, and they failing to understand the challenge were fired upon by the soldiers, one of them being injured. The crowd returned the fire, killing the sentinel. The citizens of San Luis complain of the actions of the undisciplined negroes, charging them with thefts, brawling and one criminal assault. General Shafter visited the town to investigate the alleged outrages by the military. He expressed disgust at the undisciplined condition of the Eighth Illinois regiment.

Saturday the Cuban civil authorities raised a Cuban flag over the municipal building. General Wood ordered the flag to be lowered. The San Carlos club and several merchants also raised Cuban flags. Colonel Hood was asked for protection from the American soldiers. On account of the Cuban flags being raised a number of stores were threatened, and goods of soldiers were placed about two of them. Bad feeling exists between the soldiers and the Cubans.

On the breaking up of General Wheeler's camp on the Caney road last Friday the tents and general equipment of the division headquarters were left in charge of the quartermaster's department. During the night the Cubans stealthily confiscated all the tents, stores, arms and personal effects of the soldiers. General Kent's brigade, stationed three miles from Santiago, also lost their tents and their lids marched into town barefooted, their shoes and everything portable having been stolen. The Cubans equipped themselves with the arms, tents and provisions of the Americans. They are continually stalking about the camps and constant vigilance is necessary.

Dons Congratulate Our Soldiers.

Washington, Aug. 23.—General Shafter has cabled to the war department a unique document, being nothing less than a congratulatory address sent by the Spanish prisoners of war at Santiago to the men who defeated them. The address says that the Spaniards fought the United States troops without rancor and congratulate them on their victory just because "embarazados for our beloved Spain." It says "You acted in compliance with the same call to duty as we did." "You fought us as men... with courage, a quality we have not met in the rebels, who could not confront their enemy, but hidden shot their victims from ambush."

Garcia Reports to the Junta.

New York, Aug. 23.—The Cuban junta here makes public a report of General Calixto Garcia of the operations of his forces at Santiago. He says nothing of any misunderstanding with General Shafter or of any trouble between his troops and those of the United States, but claims that his troops took a prominent and effective part in the fighting, losing over 100 men.

Garrison to Go to Honolulu.

San Francisco, Aug. 23.—A telegram has been received from the war department ordering all the troops of General Merritt's department remaining here to be sent to Honolulu with at least four months subsistence and medical supplies, and to be held there until further orders.

Merritt and Aguinaldo Agree.

London, Aug. 23.—The Hong Kong correspondent of The Daily Mail says: "General Merritt and Aguinaldo have agreed that the latter shall govern outside of Manila for the present. No insurgent will be allowed inside of the city with arms."

Western Troops at Camp Meade.

Washington, Aug. 23.—General Graham, commanding at Camp Meade, Middletown, Pa., reports the arrival of the following troops: Detachments of the Seventh Illinois, Thirty-third Michigan and Thirty-fourth Michigan.

Another Wisconsin Man Dead.

Sparta, Wis., Aug. 23.—A letter received from Porto Rico reports the death of Private Verght. He was a member of the Third Wisconsin volunteers and was shot in the stomach in the battle near Coamo.

No Yellow Fever at Montauk.

New York, Aug. 23.—Dr. Nunez, the yellow fever expert, has relieved the anxiety of the soldiers and relatives of soldiers by the statement that at no time has there been a case of yellow fever in the camp.

Indiana Boys Go to Kentucky.

Democrats decided office was abolished years ago.

The delegates to the democratic county convention at Berrien Springs yesterday were patriots more than partisans. At one of the hotel tables at dinner time a straw was taken and

lect its own chairman. A man for the position should be had connected with no ring or faction but a broad minded man who would unite the party. Judge O'Hara led the fight along this line. The controversy lasted for an hour and there was no hope of a happy settlement. Mr. Babcock refused to resign for with the delegates refused to give him up for treasurer and bad feeling was being aroused which probably would have had a disastrous effect on the campaign.

At this juncture Attorney James O'Hara moved that a ballot be taken for treasurer, suggesting that some-

one aside from Mr. Babcock he nominated. Judge O'Hara took the floor, and every delegate anxiously awaited what he had to suggest. He had been arguing that Mr. Babcock ought to resign as chairman, but he marched down the aisle and stood in front of the county chairman.

"Give me your hand, Jim Babcock," said the judge, "for I know you are worthy of the vote of every democrat in this county. I have known you a long time. I knew you in this village of Berrien Springs. When death robbed a poor neighbor of his children the village did not pay the funeral expenses. You never told anybody but I knew it. My brother James didn't mean his motion to nominate someone else for treasurer and we all want you for our candidate."

When Judge O'Hara finished speaking there were tears in the eyes of Mr. Babcock and also in the eyes of many delegates. The motion to nominate another man for treasurer was withdrawn and Mr. Babcock was allowed the opportunity to use his pleasure in regard to the matter of resigning as chairman.

What promised to make a storm of hard feelings Judge O'Hara converted into a love feast. The judge is the best general who ever attended a convention in this county.

The first vote for sheriff resulted as follows:

Fred Collins, Benton Harbor..... 89
John Johnson, Berrien..... 115
Frank Heim, Royaltown..... 46

TEXT OF RESOLUTIONS.

First Committee Discharged Without Thanks.

The original committee on resolutions of which F. M. Van Horn of Benton Harbor was chairman, offered the following resolutions:

Your committee on resolutions beg leave to submit the following: 1. That we reaffirm our fidelity to the Chicago platform of 1896 upon which W. J. Bryan made his gallant and memorable campaign for the presidency of the United States.

2. That we especially reaffirm our faith in the free coinage of silver at the rate of sixteen to one, and deprecate gold monometalism as the cause of our present financial distress.

3. That we are in full accord with the platform, adopted and candidates nominated at Grand Rapids, June 22, 1898, by the democratic union silver party of this state.

4. That we oppose the issue of government bonds, by which our currency has been contracted, and favor instead the issue of treasury notes of full legal tender force based upon the same credit as are our bonds.

5. That we favor a proper income tax by which the opulent may be made to bear their due proportion of the burdens of government.

6. That we commend the administration in its conduct of the late war with Spain, and the favorable issue, thus far, of the same. We respectfully, however, deprecate all jobs, corruption and favoritism in connection

with certain phases of the said war. Concerning the question of foreign extension of territory, we respectfully leave the same to the consideration of the next democratic national convention.

7. That we extend our sincere thanks to our present state executive for the watchful eye and tender care he has given our soldier boys in camp and field.

8. That we extend the hand of fellowship to all that may join us in our fight against republican misrule, but we do so only without sacrificing any of the principles of the national platform of 1896.

9. That it is the sense of this convention that we suggest the name of the Hon. Roman I. Jarvis of Benton Harbor, as the unanimous choice of the democratic union silver party of Berrien county, as the candidate for congress from the fourth district, and urge that, for the valuable services rendered by him in the past in behalf of the principles of our party, the delegates here selected be instructed to employ every honorable means to secure his nomination at Three Rivers the 25th inst.

As soon as the resolutions were read the storm broke. Attorney James O'Hara and Attorney Beaver of Niles led the attack. The kick was on resolutions 6 and 7. Mr. O'Hara was almost willing to personally subscribe to the resolution 7 but he really thought it out of place for a democratic convention to endorse a republican official. The praise for the administration in its conduct of the war he simply thought was absurd.

Attorney Bracelin of St. Joseph, one of the resolution committee, was touched to the quick and he scored the objectors. Democrats, he declared, out to be broad minded and be able to recognize any good that might come from the republican Nazareth. Mr. O'Hara and Mr. Bracelin then got personal and loud words ensued which made matters lively for several minutes.

Attorney Beaver of Niles who occupied the floor the greater share of the time then jumped based upon the Jarvis resolution as he didn't believe in turning the convention over to Jarvis or anybody else.

The whole matter was disposed of by appointing a substitute committee on resolutions composed of Jas. Mahoney, George Murdoch, Jr., and A. C. Roe. The old committee was not fairly used but without thanks or praise or honorable discharge they were consigned to oblivion. The new committee stole their thunder. The original resolutions were again reported with the exception of sections 6 and 7. Section 7, relating to Governor Pingree, was thrown out entirely while section 6 was revised to read:

"That we commend the spirit of patriotism and love of popular government exhibited in the declaration of war in favor of the oppressed people of the island of Cuba, and we especially commend the action of the democratic minority in congress for their patriotic and unselfish stand in favor of human liberty and likewise the brave soldiers and sailors of the republic for the successful and glorious execution of these declarations of the American people for humanity and liberty."

NEXT SATURDAY

Pawnee Bill's Great Show Will Be Here.

Pawnee Bill's Historic Wild West will be here Saturday, August 27. The Boston Globe says of the entertainment:

Pawnee Bill's Wild West Show opened its second week at the Charles River Park yesterday with the usual afternoon and evening performances, and with an increased attendance. The afternoon program was carried out in full and the show was greatly appreciated by the audiences. In the reproduction of wild life on the frontier the spectators witnessed a genuine Mexican hippodrome and Indian village, an Indian museum with quaint relics, and the congress of rough riders of the world, a spectacle of rarity and deep interest.

Not the least of the strong attractions are the sharpshooting contests in which May Lillie, the champion woman shot, figures prominently. During the performances the spectators will see the strange accoutrements worn and carried by Kit Carson in '49.

The show itself has so many good features that it is hard to particularize them. There is so much that is instructive and novel in the entertainment and so attractive that an afternoon or evening passed in the company of Pawnee Bill and his associates should prove alike agreeable to young and old.

Major Gordon W. Lillie is better known the world over now as "Pawnee Bill." This sobriquet he earned by serving the government among the Pawnees and by having been chosen by that band of warriors and useful nation as its own white chief and interpreter.

MAYOR John Starr as chairman of the democratic convention stated that in 1900 Bryan would secure 11,000,000 out of a possible 13,000,000 votes. His excellency has the thanks of the democratic party for not making a visionary or extravagant statement.

THE silly people who tore down Gen. Shafter's home at Galesburg for relics will probably be ashamed of themselves before Shafter gets through explaining the unnecessary loss of life and sickness in Cuba. The regular army ought to be organized on prohibition principles and the volunteer army ditto.

WHEN two of St. Joseph's distinguished democrats come in close contact in a county convention the impression always gets out that the gentlemen are joint owners of a cutlery or vinegar establishment. These gentlemen could benefit themselves and kill this foul convention notion by taking a liberal slice of stock in the new sugar factory.

EVIDENTLY Congressman Hamilton has the same simple ideas of government as are held by 95 per cent of the people of this section. The congressman stated that the will of the people should decide a postoffice location the same as any other matter of public concern. Let Mr. Hamilton put this doctrine into effect here and he will learn that Benton Harbor people are as free to praise and support as to censure and condemn.

GOVERNOR Pingree, when he hears of the democratic county convention at Berrien Springs and learns how F. M. Van Horn first introduced a resolution praising the war governor and how later he announced to the democratic hosts that he was going to vote for the same grand "old man," is not the fashion of a man we take him to be if he does not at once take out a policy in the Phoenix Accident and Sick Benefit association.

THE beet sugar factory should be secured before the people of this county engage in the fall campaign. The democrats and republicans could both well afford to let their tickets go down to defeat before the prohibitionists if they could with this spared energy secure a sugar factory. Every person in the county should push the enterprise. With the establishment of a sugar factory every foot of land in the county would have an enhanced value.

Laughed Away the Danger.

Ben Cable of Illinois tells of an experience of his in midocean. The day was foggy, and most of the passengers were below listening to two evangelists who were holding a particularly fervid gospel meeting in the saloon. Suddenly and without the slightest warning there was a terrific crash and the engines stopped. Every one rushed on deck. The steamer had run into an iceberg. Nobody knew what damage had been done, and everybody was ready to fly into a panic. The boats were lowered, and then for the first time the two evangelists, who had been forgotten in the saloon, appeared on deck. They wore their overcoats and their hats and they carried rugs and handbags. They elbowed their way rudely to the rail, with the evident intent of securing for themselves first places in the boat. It was just at a time when a breath would have sent the passengers panic stricken into the boats.

The sight of the two evangelists was about to undo the work of cool headed officers, when a pert little cockney stepped up to the gentlemen with the rugs and handbags. "Beg pardon," said he, tipping his cap, "ave a cab, sir?" And in the general laugh the danger of panic was averted.—Washington Post.

The Horses of Manila.

Among the first things to impress a stranger are the horses. Descended from horses brought from Mexico, they have become much smaller, while they are also much more shapely. In fact, I have never seen a better looking breed. There is nothing of the pony in their shape, though in size they range between 48 and 53 inches. At first it looked absurd to see them ridden by big men whose stirrups hung down to the horses' knees, but I soon found out that they easily carried a rider weighing 200 pounds. The foreigners have a jockey club, which holds two meetings a year at the beautiful turf track at Santa Mesa. To avoid sharp practice members of the club only are eligible to ride. This necessitates a scale of weights starting at 132 pounds and rising to 154 pounds. It demonstrates the speed and strength of these miniature horses that a mile has been run in 2:10 by a pony carrying 150 pounds. Only stallions are used. Mares cannot even be brought into the city. Nobody walks; everybody rides, and on any special fiesta thousands of carriages fill the streets. I doubt if there is a city in the world that can turn out half the number of private vehicles in proportion to the population.

Faithful Unto Death.

On the point of courage we have not yet seen in print a very notable instance that is current in service circles. It relates to one of the numerous heroic but useless struggles on the northwest frontier of India when our men were sent forward to carry positions that had to be relinquished as soon as occupied.

When the men were retiring, harassed by the fire of the billmen and bewildered by the growing darkness, a party of 18 went astray and found themselves in a position where resistance and retreat were alike hopeless. They were exposed without protection and were shot down one by one.

When their comrades retook the valley and discovered the bodies, they discovered also the evidences of a rare act of courage, devotion and cool judgment. Knowing that their end had come, and, knowing further that every Lee-Metford rifle that fell into the hands of the Afiridis meant the loss of many English lives, the men had extracted the breech locks from the rifles and hurled them down the ravine, so that the rifles when taken should be useless to their captors.—London Saturday Review.

The Nagur and the Fiddle.

Here is a story that the late Frederick Douglass used to tell about himself, says the Buffalo Express. Once when he was in Dublin he felt very lonesome. He was wandering about the streets when he was attracted by two violins in the window of a secondhand dealer. Frederick entered and asked the price of one of the instruments. "Five shillings, sir," said the Irish dealer.

Frederick tuned the violin and began to play "Rocky Road to Dublin." Soon the proprietor's wife heard the music and entered the rear door. Then Frederick started in on "The Irish Washerwoman," and the couple began to dance for dear life. When the music and dancing stopped, Frederick tendered the dealer 5 shillings, but his performance on the violin had greatly enhanced its value in the mind of the storekeeper, and as he hurried away to a place of security he exclaimed: "If a black nagur can git sich chunes out of that fiddle, I'll never sell it at any price, begorra!"

A Wonderful Time Divider.

The new pendulum chronoscope is said to be the most wonderful timing instrument in the world. It measures accurately down to the one-thousandth part of a second. It can be used with the quickness of a stop watch, and neither electrician nor mathematician is needed to operate the instrument, which is mechanical, with simple electrical attachments. The speed of a cannon ball can be determined by the new timer, and it will tell the lapse of time between the firing of a revolver and the starting of a runner, or determine how long it takes a boxer to deliver a blow.

Where She Got Them.

"But," said the inquisitive bachelor after the baby had been carefully placed in his arms, "where does she get her blue eyes? Yours are dark and so are her papa's." "Oh," the fond young mother explained, "she inherits them from my side of the family. My brother Will's wife has just such eyes exactly."—Cleveland Leader.

LOSS ON GRAPES.

It is the Railroads and Steamboats Who are Losing This Year.

The new road, the M., B. H. & C., has evidently stolen some of the grape preserves of the Vandalia and a rate war on grapes is the result. The grape season in Royalton has opened up and the farmers are reaping the benefit, while the railroads and steamboats are practically carrying the fruit at a loss. From M., B. H. & C. stations and stations along the Vandalia grapes are carried to Milwaukee for 15 cents a basket or to Chicago for a cent a basket. The price last year was just double this.

The Vandalia road started the fight but the new road followed the cut and seems to be getting its share and more of the traffic. The Benton Harbor road brought down several thousand baskets of grapes to the boats last night.

Congregational Picnic

The Congregationalists will picnic tomorrow at Somerlevton. The steamer Tourist will leave Hinkley's dock at 9:15 a. m. and return at 7 p. m. The Tourist will also leave St. Joseph at 2 p. m. and return at 4 o'clock and tickets are good on these trips. The round trip is 15 cents for grown ups and 10 cents for children. Everybody is invited.

Ready to Give Up.

H. H. COLLIS THOUGHT HE WOULD HAVE TO STOP WORK.

He Writes a Letter in Which He Gives Advice to People Who are Suffering From Kidney Troubles.

The way in which kidney diseases are increasing in the number of cases year by year would be extremely startling were it not for the fact that at the time when wrong living had multiplied cases, scientific inquiry has discovered the natural remedy for all disorders of the kidneys.

While working on new lines, with new ingredients, John Morrow, the noted American chemist, discovered Morrow's Kidneoids, and they are rapidly becoming the standard remedy. They check kidney disorders as soon as the evil appears, and they cure the most obstinate cases of long standing where many physicians have failed.

Out of hundreds of letters from grateful users of Morrow's Kidneoids, this one from H. H. Collis is typical. Mr. Collis is a pressman with the Barrett Publishing Co., and lives at 227 South Center-street, Springfield, Ohio.

"I had such a pain in my back I could not rest at night, and could not get relief. I tried all the kidney remedies I have ever heard of, but none of them ever did me any good. My urinary organs and kidneys were in such a condition that I was ready to give up. I could not handle my plates or forms at my work. I heard of Morrow's Kidneoids, and have taken two boxes, and I cannot fully express my gratitude to Mr. Morrow for this great cure. I am a new man now, and feel perfectly well. I am full of life and energy, and life is very dear to me. No one suffering from kidney troubles should delay one minute, but get Morrow's Kidneoids and take them as directed, and a cure is sure to follow."

Ask your dealers for Kidneoids, in yellow tablet form. If he does not keep them, you can get them of John Morrow & Co., Springfield, Ohio, post-paid 50 cts. a box, or six boxes for \$2.50.

MUSTER-OUT ORDER.

Salient Points of an Important Document Issued by General Corbin.

RULES TO GOVERN THE MOVEMENT.

Strict Accountability for All Government Property and What Is More Important for Every Man Originally Enlisted—Discharge to Take Place Generally at State Rendezvous—Much of the Routine Hours Directly on Future Claims for Pensions.

Washington, Aug. 23.—Adjutant General Corbin has issued an order governing the mustering out of volunteers, of which the following are the more important features: To avoid expense to the government and hardships and annoyances to individuals concerned by unavoidable delays that will occur in the final payment of officers and enlisted men absent from their commands on muster-out, commanding officers will make every effort to effect the return of all absentees and detachments prior to muster-out of the organization. Officers who at any time were responsible for public property of any description must obtain certificates of non-indebtedness before their final payment can be made. Officers who have not at any time been responsible for public property will be required to furnish the mustering officer with their affidavits to that effect.

Every Man Must Be Accounted For. All officers will be held to a strict accountability for the discipline of their commands and the preservation of public property. Mustering officers are empowered to prefer charges against officers who neglect in any manner to take the proper measures to insure the government against loss of property or to keep their commands together and under proper discipline. The supply departments of the army will continue to furnish organizations with needful supplies until date of final payment and discharge. All persons borne on the muster-in and on all other muster rolls, and all who have joined or belonged to the organization at any time since its muster-in, must be accounted for on the muster-out roll, which is required to be a complete record of all the officers and men who ever belonged to the organization.

Preparation of Discharge Certificates. Discharge certificates will be prepared for every officer and man, present and absent, except absent officers and men held in service by proper authority, and deserters. The certificates will be delivered to the regimental and company commanders. The discharge from the United States volunteer service in the case of all absentees (except in special cases) will take effect on the date of muster-out of the organization. In the case of enlisted men absent, who on account of sickness are unable to join their commands, the discharge certificates, with carefully prepared descriptive lists of account of pay and clothing, giving the address of the soldier, will be given to the mustering officer for transmission with the muster-out rolls to the adjutant general of the army, and the soldier will be officially notified to apply by letter to the paymaster general of the army for final payment.

MUSTER-OUT AT STATE CAMPS

Will Be the Rule, but There Will Be Exceptions Thereto.

Officers absent from any cause will be furnished discharge certificates (unless specially held to service) and will be notified to apply to the paymaster general for certificates of non-indebtedness and settlement of their accounts.

As a rule the muster-out of organizations and their final payment will take place at the state or regimental rendezvous, except when otherwise ordered by the war department. The preparation and completion of the muster-out rolls, returns, and papers, and the inspection and transfer of public property to the officers of the supply departments of the army, except as herein-after provided, will take place before the organization is ordered to its state.

The only property that will be allowed to be retained until the muster-out, unless otherwise ordered by the mustering officer, is the rifles, cartridge belts, cups, canteens, meat cans, knives, forks, and spoons, necessary medical supplies and tent equipment, the colors, and the regimental and company records.

The supply departments concerned will arrange through the chief commissary and chief quartermaster of the department within which the state rendezvous is located for meals, camp ground, shelter, transportation, and quartermaster's supplies for the time of the encampment of the organization at the state or regimental rendezvous.

As soon as the muster-out rolls have been fully and satisfactorily completed the mustering officer at the place of departure will fill in the date of the muster-out as of a date ten days later—the probable time necessarily required to transfer the organization to its state rendezvous, the making of the physical examination of officers and men, etc.

As soon after the arrival of the organization at its state rendezvous as possible the physical examination of all officers and men will be made before muster-out and payment, so as to facilitate the settlement of pension claims that may be made on account of disability incurred in the United States service, and to protect the rights of persons who may be entitled to the benefits of the pension laws as well as to guard the interests of the government. Provision is made for turning over to proper officers the records, colors, ordnance, etc., belonging to the troops to be mustered out; also, as to their final payment. The troops will be allowed to retain certain property, such as rifles and other equipment, by paying a stipulated price for the same.

Match Factory Girls Still Out.

Oshkosh, Wis., Aug. 23.—None of the eighty match factory girls who went on a strike Saturday afternoon has returned to work. Their places have been filled as far as possible, but the force is greatly reduced. The management does not expect the strikers to come back to some time. The girls who tried to go to work yesterday morning claim that they were intimidated by strikers.

THOUGHT HE WAS DREAMING.

But It Was a Very Stern and Terrible Reality Instead.

Chicago, Aug. 23.—Silver Ha'fark, who lives at 2111 Armour avenue, awoke early yesterday morning and found Jeff Harrison standing at the head of his bed with an open razor in his hand and threatening his life. Thinking that he was dreaming at the sight of Harrison Ha'fark was about to go to sleep again when he felt the cold steel of a razor against his throat.

Jumping out of bed and finding that he was not dreaming, but face to face with a man who was after his life, Ha'fark grappled with his assailant and succeeded in wresting the razor from his grasp. During the struggle Ha'fark received a cut three inches long on his right jaw. Harrison made his escape, but was later captured, and Ha'fark was taken to a drug store, where his wound was dressed.

DISASTER WAS EXAGGERATED.

Only Four Persons Killed in the Accident at Sharon, Mass.

Sharon, Mass., Aug. 23.—In the excitement and confusion attending the clearing away of the wreckage caused by Sunday's collision on the New York, New Haven and Hartford railroad it was reported first that thirty or forty were killed, and later that the killed numbered six. Yesterday it was learned definitely that the total number killed was four, as follows: Franklin M. Waters, of Somerville, bookkeeper; Mrs. Mary Fitzpatrick, of Boston, widow; Mrs. C. H. Frye, wife of C. H. Frye, of Revere, and Mrs. C. H. Bristol, of Winthrop.

Has a Remedy for Coal Troubles.

Springfield, Ill., Aug. 23.—Three thousand miners from central Illinois attended a monster mass meeting Sunday afternoon at Kronsark. Addresses were made by T. W. Davis, of Indianapolis; W. D. Ryan, state secretary of the United Mine Workers; J. M. Mitchell, national vice president, and H. W. Smith, of Pekin. Davis spoke of the large amount of anthracite coal used in Chicago, saying that the coal being marketed there was injurious to the Illinois miners. He suggested that anthracite coal be shut out from the Chicago market, which would result in the use of more bituminous coal.

Wheelmen Must Stamp with Care.

Washington, Aug. 23.—The commissioner of internal revenue has held that certificates of membership in wheelmen's protective associations are required to have affixed to them revenue stamps at the rate of one-half cent on each dollar or fraction thereof of premium paid. The document is held to be a guarantee against loss by theft and not a certificate in the usual meaning of the word.

Seven Men Killed in a Tunnel.

Pittsburg, Aug. 23.—A terrible accident by which seven men lost their lives occurred yesterday in the tunnel of the Chartiers division of the Panhandle railroad at Carnegie. It seems that by using too large a quantity of explosive an unexpected amount of earth and rock was loosened, which caved in on the workmen.

Lincoln Has a Granddaughter.

Mount Pleasant, Ia., Aug. 23.—Mrs. Jessie Beckwith, daughter of Robert T. Lincoln's daughter, who died a sensation by eloping to Milwaukee last fall, where she was married to Warren W. Beckwith, yesterday gave birth here to a nine-pound daughter. Her husband, who had gone to war, is home on a furlough.

Woman Robbed at a Swimming Pool.

Potosky, Mich., Aug. 23.—Mrs. W. F. Stine, wife of a Kansas City undertaker, was robbed of \$1,500 worth of diamonds and a small sum of money at the Charlevoix swimming pool. Mrs. Stine left her diamonds and money in a room of the natatorium while she was in the pool.

No Idle Men at Oshkosh.

Oshkosh, Wis., Aug. 23.—The sash, door and blind factories started up Monday morning with full crews throughout. No idle men are on the streets, and wages paid for men to do odd jobs have advanced accordingly.

St. Louis Doctor Falls to Death.

St. Louis, Aug. 23.—Dr. C. M. Hibbard, house physician of the Planters' hotel, was instantly killed shortly after 5 o'clock yesterday afternoon by falling down an elevator shaft from the second floor of the hotel.

Ate the Heads of Matches.

Danville, Ill., Aug. 23.—Effie Martin, of Glenburn, a small town, six miles from here, attempted suicide yesterday by eating the heads of matches. She will probably die. Love affair.

SEEK METHODS THAT MAKE WELL. Allopathic, homoeopathic, hydropathic, hygienic, psychopathic, electric, physio-medical, dosimetric, bio-chemical, official and other systems investigated and the best principles of each applied for conditions in which they have proven the most beneficial. No one school of medicine has all the good things, there is some one remedy that is best of all in each. The real physician must represent not one school system or path, but the health of man in all its entirety, study and compare all curative measures, then select and apply the pleasantest, safest and surest. It is better to cure by any system that will accomplish such result than be obstinately orthodox in methods. The motto of a true healer is "Not to cure or not to cure."

TO THE PUBLIC. It is but just to you and myself that I make some mention of my press for the work I would undertake. I am one of a medical family. I have attended and hold credentials from leading colleges of various schools or systems of medicine. For years I have successfully conducted a large practice. I have held high office in state and national medical societies, and received honorary professional recognition abroad. I have had considerable hospital experience, was an intimate associate of distinguished experts and familiar with their methods; am something of a medical author and have been professor in reputable medical colleges. These statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist, heartily all who need and desire my services. Office practice preferred, but if properly arranged for, visits will be made any distance. Respectfully,

Politics in Washington's Time.

But, even worse than official incompetency, those who provided the supplies
were tainted with speculation and fraud, says Charles Kendall Adams in The
Atlantic. The historical student, as he
gives up the idea that the legislation of
the time was supremely wise, must al-
so, however reluctantly, abandon the
idea that the Revolutionary period was
an age of spotless political virtue.

Again and again Washington pleaded
with congress and with the chief offi-
cers of the individual states. In appeal-
ing to President Reed of Pennsylvania
on the 12th of December, 1778, to bring
those whom he calls the "murderers of
our cause" "to condign punishment,"
he unbridled his passion and sent these
energetic words: "I would to God that
one of the most atrocious in each state
were hung on a gallows five times as
high as the one prepared by Haman."

The situation seemed so desperate
that only six days later he wrote to
Benjamin Harrison, the speaker of the
house of delegates of Virginia, "As
there can be no harm in a pious wish
for the good of one's country I shall
offer it as mine that each state will not
only choose but compel its ablest men
to attend congress."

Quaint Fitz-James O'Brien.

Mrs. M. E. W. Sherwood relates in
the New York Times some amusing
sayings of Fitz-James O'Brien. On vis-
iting a very patriotic lady on New
Year's day, after the civil war was de-
clared, he said, "She had flags on the
mantel and cold roast eagle on the side-
board." When asked if he partook of
the latter, he said no, as "an Irishman
he was drawn by a patriotic instinct to
the potato salad," and demanded Scotch
whisky to show cosmopolitan breadth.
Lest he should become too bellicose, he
"felt even afraid to handle a drum-
stick."

Asked if women had inspired men to
drink as well as to heroic actions, he
said, "Yes! Often when one is Mumm,
and the other extra dry."

And speaking of the heroic intoxica-
tion that has sent so many men to war,
he said it is what "makes the puppies
fight well, and then, we feel such a de-
licious egotism. Why, when I am
marching down Broadway, I do not
know whether I am a part of the uni-
verse or whether the universe is a part
of me."

Diamond Studded Streets.

Perhaps the most interesting fact in
connection with Kimberly, the Diamond
City, is the "street washing," and some
of the debris washers have done very
well. The "washing" consists of over-
hauling the earth for diamonds.

At nearly every meeting of the bor-
ough council applications for permis-
sion to wash streets, or portions of
streets, are received. The would be
washer has to obtain the consent of per-
sons resident in the street or road, to
put the latter into sound repair again
and pay title to the municipality in
the shape of 10 per cent on his gross
finds. Last year \$360 was paid to the
municipality in this way.

In the early days of the diamond
fields the ground was washed in a very
primitive style, many diamonds being
thrown away in the debris, as it is called.
This debris was subsequently used
for street making purposes, and now,
years after, with better machinery at
their disposal, people find it pays to
"wash the streets."—Cape Times.

He Settled It.

An amusing story is told at Stratford-
on-Avon. In the smoking room of a
hotel there an Englishman and a Scotch-
man engaged in a heated argument.
John Bull was declaring William
Shakespeare to be the only poet of the
world, and Donald McPherson was
standing up for his Robert Burns.

Words ran high and blows seemed
imminent when a self confident little
commercial traveler determined to
throw oil on the troubled waters.
"Gentlemen," he said, stepping be-
tween the heated disputants, "let me
settle this amicably. Who is this Shake-
speare-Burns?"—London Telegraph.

Flight of the Butterflies.

One of the most beautiful sights in
the world is the annual migration of
butterflies across the isthmus of Pana-
ma. Where they come from or whether
they go no one knows, and though
many distinguished naturalists have at-
tempted to solve the problem it is still
as strange a mystery as it was to the
first European traveler who observed it.
Toward the end of June a few scat-
tered specimens are discovered flitting
out to sea and as the days go by the
number increase, until about July 14
or 15 the sky is occasionally almost ob-
scured by myriads of these frail insects.

Not His Legs.

A Russian peasant having gone to the
town to buy himself a pair of new
boots, fell asleep by the roadside on his
way home and was stripped of his cher-
ished boots by a light fingered tramp,
but his sleep remained unbroken till a
passing wagoner, seeing him lying half
across the track, shouted to him to
"take his legs out of the way."
"My legs?" echoed the half aroused
sleeper, rubbing his eyes. "Those legs
ain't mine. Mine had boots on!"—
Paris Figaro.

"The Smallpox Devil."

The natives of the west coast of Su-
matra object to be vaccinated. They
take offerings to the smallpox devil.
The heart and liver of fowls and buf-
falo are mixed with yellow rice and
other ingredients, placed in the model
of a rigged ship, carried in proces-
sion and finally launched into the sea.

LETTER FROM BARRATT O'HARA.

Tells of the Difficulties the Boys
Experience in Telling the
Days of the Week.

Sardinia, Cuba, Aug. 7.—I am not positive whether today is Sunday or Thursday. I have lost all trace of time, keeping posted on the date by a primitive calendar, consisting of a long stick with thirty-one holes bored through it. These holes are the 31 days of August. As one day passes one hole is plugged up and so on until the month has passed into history. By this crude method I am kept truthfully posted on the date of the month, but the day is often a guess, sometimes a most amusing one.

There's a terrible monotony in everything here—it's simply a dreadful sameness which prevails. The scenes don't change, won't change. That smiling cliff of rock still smiles in the same old fashion—day in and day out. The smile has become a permanent fixture. Those inviting trees are yet in place, but never once do they rend the monotony so much as to drop a leaf. And the tents, are all here—all present; but they to have become Cubanized and are too solemnly in keeping with nature to even blow down or what's better, burn up.

But the men move back and forth in silence. They are inmates of a very tomb. They congregate around the shade tree, shatter a few jokes of last year's vintage, pass a word of rumor, and slumber the day away. Here and there men are constantly dropping. They are sick, sent to the hospital, and nursed by no one. At last they return and the poor friends open their eyes when they hear that so and so has been away from camp. After that they sleep again and the world moves on.

Cooling dreams of home, of peaches, apples, melons and berries, of soft beds, go creeping through the sleeper's brain, and they enjoy it all. Oh, such is this life at Sardinia—a dreary, dismal routine of minor duties.

But the spell is broken. Word has arrived that we leave the coming week, leave for America, the United States of America, the land of the ice cream, the cake, the pie, the fruit. Joy prevails in every quarter, none but are happy. But if the rumor prove false! What use for idle speculation. We are told that peace has been decided. May, such be the truth. The New York Herald cabled thusly to Gen. Shafter and we believe there is "something in it."

The patient waiting friends in Berrien county have but little more to fear. We have finished our work.

BARRATT O'HARA.

OTHER LETTERS

Received Today from Our Soldier Boys.

Many soldier letters were received this morning and we give extracts from one written by Charles Urbshadt, who was cook of Company I, written to Sam Smith. He fears that he is about to have the fever and has been ordered to remain in Cuba. He writes under date of August 10:

I am in hard luck. The boys are all going to leave tomorrow and I have to stay here, I am not alone though. I can walk around yet but do not know how I will come out. I have the pain in my stomach, that is the way the fever starts. I wish it had kept off until we were out of this place. All my tent mates that I chummed with are in the hospital. They are Charles Wright, Fred Hand, Charles Barr, Harry Beals and Monte Williams. There are lots more of our company sick but I can't remember them all. It is raining again and getting a little cooler. Lots of transports are coming and going with soldiers. I got some relief for you but we are not allowed to take anything. Every thing will be burned.

Verne Runyan writes a letter to his mother, the first for sometime because he was unable to get any paper. He is in excellent health and is greatly pleased over the orders that have just been received to be ready to take the transports for the north. His letter is written August 6:

Dear mother: I received your loving letter August 4. I suppose you people worry about me but the reason I haven't written before was because I had nothing to write on. It was nothing but good luck that I got this. About sending me anything, don't worry about it not reaching me for the mail that is sent to us is well guarded. Sometimes they are a little slow but it nearly always reaches us and by all means send all the papers you don't use for when a fellow is down here on this lonely island there is nothing like reading home letters.

whole Spanish empire was at the bottom of the ocean. I want to tell you that I had the pleasure of seeing the Spanish fleet blown to the bottom of the ocean. Our old gunboats have done fearful work down here and it is a good thing Santiago gave in when she did for if she hadn't with the aid of the land forces we should have banished her from the face of the earth. There are so many false rumors here about moving and when they get through the camp some begin building hopes only to have them fall down like so many blocks piled up and then tipped over. Orders have just come from Santiago to be ready to embark on transports after the 6th, so by the time this reaches you the 33d will be either in the states or creeping towards them.

See Miss May DeMay, the charming soubrette, at the bicycle track tonight. Admission 10c.

A BICYCLE COLLISION.

Two Royalton Men are Badly Injured.

Two or three evenings ago George Fogel and John Moyer, Royalton farmers, met on their wheels along a meadow road near Hinchman. High weeds obscured the view and at a sharp bend in the road they ran into each other, their heads striking together with a frightful force.

Fogel had his jaw broken in three places, while Moyer's face and eyes were badly bruised. Moyer's wheel was demolished. Both men will recover.

See the Vaudeville show tonight at the bicycle track. Admission 10c.

RELIEF FUND.

George M. Bell & Co. Have the Accolade Picture.

George M. Bell & Co., druggists, have taken up the idea of helping to raise one million dollars to assist the Red Cross society in caring for the sick and wounded soldiers.

The souvenir that is given in return for each dollar is a real work of art that will adorn any parlor wall. It is a large picture, 18 by 35 inches in size. It presents Columbia, the allegorical figure of the United States, bestowing the Accolade on wounded Cuba. In the words of Judge Noah Davis of New York in speaking of this picture, "The Accolade is the name of the kiss given as the final ceremony in the bestowment of knighthood upon the worthy heroes of the age of chivalry. It was the token of love for noble deeds—deeds done in the cause of virtue—in the defense of innocence and in the rescue of the humble and the poor. It was therefore the 'Kiss of Love'—the tenderest and sweetest kiss when given in the cause of suffering and helpless humanity."

The picture is on display in Bell's window and is attracting much attention.

Here is a chance to help in a good cause.

Two well dressed strangers entered Herring's livery barn early yesterday morning and hired a horse and buggy saying they wished to go to Millburg and would return between 6 and 7 o'clock in the evening. They have not yet returned and it is now believed that they hired the rig with the full intention of stealing it. The matter has been placed in Sheriff Ferguson's hands.

Mrs. L. M. Dickinson, an old and highly esteemed resident of this city, died very suddenly of apoplexy at her Niles avenue home last evening at 6 o'clock. She deceased was 67 years of age and leaves two daughters, Mrs. William E. Fry of Freeport, Ill., and Mrs. William Halsted of St. Joseph.
